**Green Valley Builders Saved Homeowners Over \$2,000
in Their Utility Bills in 2009**

BLACKSBURG, Va. – February 1, 2010 - Through our partnership with [ENERGY STAR](#), we are doing our part to protect the environment while offering homeowners new homes that are more comfortable and save money on utility bills.

In 2009, Green Valley Builders (GVB) built 5 ENERGY STAR qualified homes. That is equivalent to:

- Eliminating emissions from 2.45 vehicles
- Saving 14,820 lbs of coal
- Planting 4.05 acres of trees
- Saving homeowners \$2,235 on their utility bills

"We thank you for the important contribution that your organization has made to energy-efficient construction and environmental protection," says ENERGY STAR.

About Green Valley Builders

Since 1997, Green Valley Builders (GVB) has designed and built custom homes of the highest quality in new communities and estate lots in Southwest Virginia. As a certified EarthCraft, ENERGY STAR, EPA Indoor airPLUS and LEED for Homes builder, the company focuses on a sustainable approach to building to create a whole house system that is healthy, comfortable, reduces energy bills and protects the environment. GVB is a small design/build team dedicated to customer service and satisfaction in order to meet each client's needs, budget and long-term well-being.
